

Paramount J™

Flexduct Hanger

*View the product video at
www.paramountconcepts.com*

- The fastest, easiest way to hang flexible duct
 - One person pre-hangs J hangers on the joist every 5'
 - Flexduct is then placed into each hanger
- 3" wide saddle provides superior support
 - No crimping, airflow loss, or compression
- 10" span supports common supply size flexduct (5" – 8")
- Eliminates failed inspections and re-hanging costs
- Versatile hanger can be used for many applications
 - Spiral pipe, insulated metal pipe, line sets, etc.
- Total job cost is less than hanging strap
